HABITAT FEATURES

	Present?	Notes
Standing water (pond, marsh?)		
Moving water (stream width? fish-bearing? swift?)		
Bare ground		
Rocky outcrops (high cliffs, ravine?)		
Boulders		
Snags (abundant? large or small?)		
Trees w/cavities (species?)		
Multi-tier canopy		
Understory (sparse, thick?)		
Downed logs (abundant?)		
Leaf litter		
Additional remarks: Will site improvements fragment habitat and potentially produce edge effects?		

Describe human disturbances at site:
