

Get ready for your new electric meter!

Chugach Electric Association will be installing new electric meters in your area over the next few weeks. These new meters will help us improve efficiency and reliability and will help track, diagnose and restore outages more effectively.

Here's what you can expect:

- Meter installation will take place Monday through Friday between 8:00 a.m. and 5:00 p.m.
- As long as we can access your meter(s), you do not need to be present for this work.
- Chugach employees and our contractors will be installing all of the new meters. All meter installers will carry identification.
- Your electric service will be briefly interrupted. We apologize for any inconvenience this may cause.
- After our visit, you will find an informational door hanger to confirm that the work has been completed, or to inform you that your assistance is required to complete the installation.

If you have any questions,
