CHUGACH ELECTRIC ASSOCIATION, INC. Application for Net Metering Installation

Who Should File This Application: Anyone wishing to operate electrical generation facilities (25kW maximum nameplate capacity) interconnected and operating in parallel with the Chugach Electric Association (Chugach) electric power system.

Application Use: This application is used by Chugach to perform a Preliminary Interconnection Study to determine the connection suitability at the Applicant's proposed facility location. Should additional information be required for this study, the Applicant shall provide such as requested by Chugach.

Application Fee: A \$200.00 non-refundable fee is required to be submitted with this application. This fee should be paid by check made out to Chugach Electric Association and submitted by mail addressed to "Chugach Electric Planning Engineer, PO Box 196300, Anchorage, AK 99519" or dropped off at Chugach's main office.

DESCRIPTION OF PROPOSED INSTALLATION

Please provide a detailed description of the system configuration to include 1) number and type of generators, 2) number and type of inverters, 3) ancillary power equipment (battery storage, transfer switches, etc.). Attach (or provide in the space below) a one-line diagram detailing the proposed installation (include the position / type of required disconnect or overcurrent devices, and the method of interconnection to the electrical system).

SIGN OFF AREA:

Note: By signing this document, I agree to meet the terms and conditions presented in the Chugach Electric Association Interconnection Guidelines for Non-Utility Generation. I also recognize that any conditions of those guidelines that I do not meet must be approved and documented by Chugach prior to installation and connection. Application processing time is 2-4 weeks.
