Incumbent: Yes
Declarations: None

Candidate Statement

Currently serving as Director on the Chugach Electric Board, I seek your vote for a second term. If reelected, I will continue paying close attention to the numerous opportunities and challenges confronting our utility and the Railbelt. My background in power and natural gas resources, combined with my commitment to representing you as a co-op member, serve me well as your Director.

As Chugach seeks a more sustainable energy future, for these key areas, I will:

1. **Renewable Power Expansion:** Work toward the aggressive uptake of renewable and clean energy.
2. **Transmission Expansion:** Work to improve and expand transmission infrastructure, a critical component for adding renewable power to our electrical grid.
3. **Gas Supplies:** Work to ensure that we have near- and mid-term critical gas supplies to keep the lights on as we transition to a more sustainable and diverse energy future.
4. **Railbelt Utility Collaboration:** Work to foster collaboration between Railbelt utilities to make overall grid operations more efficient and make cost-effective integration of renewable energies possible.

I am committed to leading Chugach Electric through these challenging times to one of a more resilient energy future, one of renewable dominance and enhanced Railbelt utility collaboration.
