Nominated by: Nominating Committee
Incumbent: Yes
Declarations: None

Candidate Statement

My wife and I have lived in Anchorage for 25 years and are raising our two boys here. We believe in the importance of supporting our community. My involvement with Chugach Electric Association on the Renewable Energy Committee (2007-2009) and as a Director (2017-current) helps fulfill this commitment.

Being a Chugach Director has been a rewarding experience. During my tenure, Chugach completed the acquisition of ML&P, a key component in assuring that Chugach will continue to provide reliable and cost-efficient electricity.

As a director, I will continue leveraging my 30+ years of experience in leadership, business operations and engineering to benefit of Chugach. If re-elected, I will continue:

- Listening to members and serving in their best interest;
- Assuring successful integration of Chugach and ML&P into one company;
- Setting a strategic direction to diversify generation and integrate renewable energy; and
- Exploring ways to reduce the cost of electricity.

My expertise in executive leadership and problem-solving, and more specifically power generation and distribution, make me uniquely qualified to help position Chugach Electric Association for a successful and sustainable future. I am motivated to continue representing Chugach members on the Board of Directors. I would appreciate your vote.

Thank You
