

Engineering Construction Overview

Z

1. Apply

Get Ready:

- Review our new construction and services page to find out how Chugach can assist you.

Information Needed:

- Gather required information we'll use to start the design work on your project.
- Street and legal address of property
- Current service type and size, aka rating i.e., 200 Amp, single phase, 120/240 volt
- New service type and size, aka rating
- Building site plan

Apply Online:

- Submit your application for service using Chugach's Web Form anytime 24X7

Speak with Chugach Representative:

- Our engineering team will contact you once they have received your request and a team member is assigned.

Design your Project:

- Once all of the information needed is received, our engineering team will prepare the design and cost estimate for your review and approval.

2. Construction

Service Gear:

- Begin working with a qualified electrical contractor to install your service gear in the location approved by Chugach. Our engineering team can verify approved locations.

Final Grade/Clearing:

- Before Chugach can begin construction your job site will need to be at final grade. Any clearing on your property that you have elected to do yourself needs to be completed prior to construction.

Payment to Chugach:

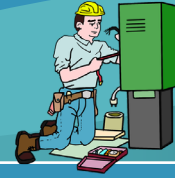

- Deliver payment, cash or check, to the Receptionist Desk of Chugach's offices at 5601 Electron Dr. when prompted by engineering.

Keep Communicating:

- Chugach can construct primary facilities to your lot when clearing is complete and your lot is at final grade. Contact your engineering representative when ready.

Schedule Chugach Build:

- Our engineering team will coordinate the construction schedule with our crews or contractor.

3. Energize

Municipal Inspection of Service Gear:

- When you've successfully passed inspection you will receive a green tag number.

Set Up Service Account:

- You can submit an application for new service on the Chugach website. Call Chugach's New Service Desk at 762-4729 with your green tag number.

Service Construction & Connect:

- Chugach may delay construction of the service run until your new service passes inspection. Crews will be scheduled once your green tag number is received. The service cannot be connected prior to municipal approval.
