

## Diesel tanks removed, ground restored

Two one-million-gallon diesel tanks were recently removed from the Sullivan Power Plant site along the Glenn Highway, marking a significant step in Chugach's ongoing environmental stewardship efforts.

The tanks, installed in the 1980s and retired in 2015, had been emptied and cleaned before remaining idle for several years. Their removal fulfills a key remediation commitment by Chugach.

*Removal and remediation of site at Sullivan Power Plant*

In late 2025, crews removed the tanks, associated piping, and related infrastructure. Full ground remediation is underway and scheduled for completion in early 2026.

The project reflects Chugach's commitment to responsible environmental management and the careful cleanup of legacy facilities. {141009762}

## Two seats open on Chugach Board of Directors

As we start a new year, plans are being made for Chugach's 2026 Annual Meeting and Election.

### **Board applications due Jan. 26**

When voting opens in late April, members will vote for candidates running to fill two seats on the Chugach Board of Directors. The deadline to be considered a candidate by the Nominating Committee is Monday, Jan. 26, but members can still run by petition. A petition candidate needs signatures from 50 Chugach members to be considered.

The deadline for petition candidates is 5 p.m., Friday, Mar. 13. Details and all forms are on the Annual Meeting & Election page at [www.chugachelectric.com](http://www.chugachelectric.com).

[chugachelectric.com/annual-meeting](http://chugachelectric.com/annual-meeting). If you have questions, contact Julie Hasquet at [julie\\_hasquet@chugachelectric.com](mailto:julie_hasquet@chugachelectric.com).

### **Bylaw submissions due in January**

Members may submit proposed bylaw changes until 5 p.m. Monday, Jan. 26. Bylaw proposal forms can be found on the website and should be submitted to: Julie Hasquet, 5601 Electron Dr. Anchorage, AK 99518 or [julie\\_hasquet@chugachelectric.com](mailto:julie_hasquet@chugachelectric.com). Members with questions can call (907) 762-4489.

### **Annual Meeting and Member Appreciation Event**

The annual meeting is scheduled for 4 p.m., Friday, May 29 at ChangePoint Alaska. The annual meeting will be

held the same day as Chugach's Member Appreciation Event, which will run from 1 p.m. to 4 p.m. More details to come in future Outlets and at [www.chugachelectric.com](http://www.chugachelectric.com).

## Heat pumps are heating up. Rebates available.

The popularity of heat pumps continues to increase as more Alaskans electrify heating in their homes and businesses. Modern cold-climate heat pumps can work reliably in the Anchorage area and have a proven track record in other northern U.S. states, such as Maine, where new heat pump installations outnumber traditional oil and gas heating systems. Chugach is also installing heat pumps in some of its facilities to demonstrate the performance of modern cold-climate systems.

Chugach offers a rebate incentive for heat pump systems. Residential members can receive up to \$900

and commercial members can receive up to \$1500 for installing an eligible heat pump system. Visit the Beneficial Electrification page on the Chugach website to learn more about the Heat Pump Pilot Program and submit an application. {141014092}

## In the community: Helping hands and holiday cheer

Chugach employees spread holiday cheer with a variety of volunteer opportunities, including bell-ringing for the Salvation Army, helping prepare meals at Bean's Cafe, and donating 350 turkeys to 11 local nonprofits. Chugach is committed to the cooperative spirit of "Concern for Community" and to pursuing initiatives that support charitable and community efforts, all year round.

## CHUGACH EMPLOYEE SPOTLIGHT

From Engineering to Operations to Member Services, all of Chugach's roughly 450 employees live and work in Alaska.

Each month we introduce you to one of our employees who works every day to provide safe, reliable power to our members.

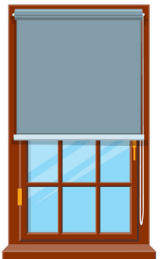

Name: Heather Slocum  
Position: Executive Assistant  
Time at Chugach: 2 years

Heather says one of her proudest accomplishments at work has been assisting all the talented members of the Strategy Team with their diverse and meaningful initiatives.

In most homes, about 30% of heating energy is lost from windows.

Something as simple as using thermal curtains, a curtain specifically designed to reduce heat loss, could save you energy and money. Window insulation film is another low-cost yet effective way to save energy. *Source: energy.gov*
